Science Periodical Journal

One day I was reviewing my previous internet archive files that I have uploaded. I have come across an article I've downloaded from Gale Academic OneFile, on an AI robot playing chess, back in the 1990's. I have learned that it came from a periodical called Science, its ISSN: 0036-8075, and its eISSN: 1095-9203. I have reached out to 6 libraries that I have found to be associated with the journal on World cat. Below you can see my interactions with each one.

Ryan Library (Iona University)

This was my inquiry, Good Morning, my name is Wilfredo Gajda, I am reaching out to your libraries because I am looking into where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article, but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda

This was their response, I see that your question is about the database, not the article. We don't have it in a database. We have it as a direct subscription, we also have 1988-2005 in ProQuest Central, ProQuest Research Library, and ProQuest Education Database. We also have 1983-2005 in the Gale OneFile database, the Gale in Context database, Gale Academic OneFile, Gale OneFile: High School Edition, and Gale OneFile: Leadership and Management database.

Esther Rashenbush Library

This library is apart of Sarah Lawerence. This was my inquiry, Good Morning, my name is Wilfredo Gajda, I am reaching out to your libraries because I am looking into where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article, but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda

Their email bounced back, when I sent out the email blast, to the world cat listed libraries.

LuEsther Mertz Library

Hello Wilfredo Gajda,

Thank you for contacting the NYBG Mertz Library! We have received your question:

The following was my original question.

Good morning, My name is Wilfredo Gajda, I am reaching out to your libraries because I am looking for where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to

your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article, but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda

Hello Wilfredo,

Thank you for contacting Mertz Library. The Science Journal (ISSN:0036-8075, eISSN:1095-9203) can be found in databases such as:

- JSTOR
- Gale Academic OneFile
- Gale General OneFile
- Gale In Context: Biography
- Gale In Context: Opposing Viewpoints
- Gale OneFile: Agriculture
- Gale OneFile: Educator's Reference Complete
- Gale OneFile: Environmental Studies and Policy
- Gale OneFile: Health and Medicine
- Gale OneFile: Nursing and Allied Health
- Gale OneFile: Popular Magazines
- Gale OneFile: Psychology
- Gale OneFile: Science
- Gale Academic OneFile Select
- ProQuest: Research Libraries
- ProQuest Central

- Agricultural & Environmental Science Database: 1988 - 2005

Keep in mind depending on the institution, the database subscription varies. This journal is found in many public, academic and medical institutions listed here (i.e. CUNY, Columbia University, New York Public Library, New School).

Leonard Lief Library (Lehman College)

I have sent the following email, Good Morning, my name is Wilfredo Gajda, I am reaching out to your libraries because I am looking into where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article, but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda , The Leonard Lief library was a part of this email blast.

This was their response, Science has a database of its own. This is a major journal, and it can support its own database.
Articles published in Science are also available in a few other databases as well. But Science's own database is the most comprehensive collection of articles published in Science.

Fordham University

I have sent the following email, Good Morning, my name is Wilfredo Gajda, I am reaching out to your libraries because I am looking into where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda , and Fordham University Libraries was a part of the email blast.

Email response bounced back. Double check email address.

Port Washington Library

have sent the following email, Good Morning, my name is Wilfredo Gajda, I am reaching out to your libraries because I am looking into where I could obtain the following citation, McCarthy, John. "Kasparov Versus Deep Blue: Computer Chess Comes of Age." Science, vol. 276, no. 5318, 6 June 1997, pp. 1518+. I was able to find it freely available on Google, Google Scholar, Gale Academic OneFile. I would like to know if there is any database that is mostly subscribed to by an academic library that houses this article. The reason why I am reaching out to your libraries is because your libraries came up in a World Cat listing.
Again, I am not looking for this article, but I am looking for potential databases on an academic library level that may subscribe to this.
Wilfredo Gajda and Port Washington Library was a part of the email blast.

This was his response, Dear Mr. Gajda,

According to our most recent local directory of libraries, the institutions most likely to house the databases you are looking for are the following:

1. Long Island University/LIU-Post. B. Davis Schwartz Memorial Library. (516) 299-2305.
2. St. John's University Library. (718) 990-6201.
3. York College Library. (718) 262-2034.

As holdings are susceptible to change, I would advise you to call any or all the above institutions to verify that this article is available through one of their databases. Judging from the directory, since all three libraries, at the time of publication, subscribe to the database Science Direct, it stands to reason that that database would index articles from the journal Science. However, you would have to contact each library directly to confirm this.
